

## Dr.-Ing. Natalia Realpe Carrillo

HEDERA Sustainable Solutions GmbH, Institute of Advanced Sustainable Studies (IASS)

Dr.-Ing. Natalia Realpe Carrillo is an IASS Klaus Töpfer Sustainability Fellow <https://www.iass-potsdam.de/en> and the director of HEDERA Sustainable Solutions GmbH <https://hedera.online/>, a tech company dedicated to developing software solutions to help financial institutions efficiently analyze their clients' needs and demands in terms of basic services and track their contribution to the SDGs. In parallel to her work in HEDERA, Natalia is guest lecturer at the Pan African University Institute of Water and Energy Sciences including Climate Change (PAUWES) and TU Berlin Campus El Gouna.

Natalia holds a PhD degree in energy access from the TU Berlin Energy Engineering Institute. She has worked for over a decade in the green microfinance sector as senior project manager and energy consultant, supporting institutions in enabling access to clean energy in rural remote regions, managing projects in Latin America, Central Asia, and Africa. Since 2019, Natalia has been co-leading the e-MFP Green Inclusive & Climate Smart Finance Action Group. Natalia regularly conducts training and workshops on green microfinance, energy access, and impact metrics.
